REQUIREMENT 5
OPTION A 5b:

Explain how to properly care for and store recurve bows and longbows.

Notes:

2024 Edition

SCOUTMASTER BUCKY

Archery Merit Badge

REQUIREMENT 5

Demonstrate and explain USA Archery's "Steps of Shooting" for the bow you are shooting.

OPTION A 5c:

USA Archery's Steps of Shooting:

1. Stance

- › Straddle the shooting line with one foot on either side.
- › Move the foot closest to the target back so that the toes of that foot line up with the center of the arch of the outside foot.
- › Angle the hips by turning the toes of both feet toward the target approximately 30 degrees.

2. Nock

- › The index vane is pointing away out or away from the riser.
- › The arrow is snapped onto the string.

3. Hook and Grip

- › The grip on the bow is loose and the knuckles are at a 45 degree angle to the bow.
- › Index, middle and ring fingertips are curled around the string below the nocking point.

4. Posture / Alignment (*Set)

- › Stance, hook, and grip maintained.
- › The head is turned toward the target.
- › The bow arm is out of the path of the string.

5. Raise Bow (*Set-Up)

- › The bow arm is lifted straight up from the ground.
- › The bow hand is stopped at shoulder height.

6. Draw (*Draw to Load)

- › Pull the bowstring back in a straight line towards the face.

7. Anchor

- › The index finger of the draw hand is settled in the corner of the mouth.

8. Transfer to Hold

- › The draw arm elbow moves slightly behind the arrow.

9. Aim (*Expand/Aim)

- › Place the point of the arrow toward the intended target.
- › The focus is equally on the arrow point and the target.

10. Release / Follow Through

- › Relax the fingertips and allow the string to roll off the fingers.
- › The shot is finished by moving the drawing arm so that the drawing hand stops between the ear and shoulder.

11. Feedback

- › What improvements could you make?

2024 Edition

SCOUTMASTER BUCKY

Archery Merit Badge

REQUIREMENT 5

Demonstrate the proper way to string a recurve bow or longbow.

OPTION A 5d:

RECURVE BOW

Step 1

Identify the top string loop and slide the top loop over the upper limb of the bow and locate the lower loop in the lower string-nock. Check the position of the bottom loop ensuring that it is located in the string groove of the limb and then slide the large pocket of the stringer over the bow tip and string loop.

With the bow held horizontally and the string underneath, place the small pocket of the bow stringer over the top bow tip. If using the saddle type bow stringer place the dimpled saddle of the stringer over the upper limb and below the bowstring loop. Slide the dimpled saddle of the stringer along the upper limb of the bow and locate it directly behind the upper string loop.

While holding the bow by the handle around the grip with one hand (if using the saddle type stringer) position the dimpled saddle with the other hand. Allow the cord of the stringer to touch the ground and place the ball of one or preferably both feet onto the cord. Under no circumstances should the cord be located under the arch of the foot, as this will allow the cord to slip when the tension is taken up. It is recommended that children use both feet.

Step 2

Take up the slack in the cord and place the thumb and index finger of your free hand on each edge of the bow limb located just behind the string loop and take up the slack in the bow string.

Step 3

In one action draw up using the hand holding the bow. This causes the limbs to bend downwards. At the same time, slide the string up the limb with the other hand until it engages with the string nock.

Step 4

Using your finger, check that the string is seated correctly in the bow nock.

Step off the cord and, at arm's length, rotate the bow, string toward the body with the limb tips pointing away from the body and vertical to the ground, this will ensure if there is an accident the limb and string will move away from the body. Inspect the string is correctly seated in both limb tips in particular the upper limb nock is correctly seated in the nock groove.

If correct, remove the bow stringer and check that the lower string loop has not moved and is still seated correctly.

Now check the brace height and nocking point height before shooting.

2024 Edition

SCOUTMASTER BUCKY

Archery Merit Badge

LONGBOW BOW

1. Slide the top loop over the nock and down the limb
2. Hook the bottom loop into the nock
3. Holding the bottom of the string taught by the center serving step through the bow with your left leg
4. Rest the bottom of the bow against the front of your right ankle and position the handle high at the back of your left thigh.
5. Using your left hand push the top of the bow forwards and slide the string up and into the nock to string your

REQUIREMENT 5 OPTION A 5e:

Using a bow square, locate and mark with dental floss, crimp-on, or other method, the nocking point on the bowstring of the bow that you are using.

Nocking Point

2024 Edition

SCOUTMASTER BUCKY

Archery Merit Badge

DO ONE OF THE FOLLOWING (5F1, 5F2, 5F3, or 5F4) FOR REQUIREMENT 5 OPTION A

REQUIREMENT 5 OPTION A 5f1:	Using a recurve or longbow and arrows with a finger release, shoot a single round of one of the following BSA, USA Archery, or NFAA rounds: a. An NFAA field round of 14 targets and make a score of 60 points b. A BSA Scout field round of 14 targets and make a score of 80 points c. A World Archery/USA Archery indoor* round and make a score of 80 points d. An NFAA indoor round and make a score of 50 points
REQUIREMENT 5 OPTION A 5f2:	Shooting 30 arrows in five-arrow ends at an 80-centimeter (32-inch) five-color target at 10 yards and using the 10 scoring regions, make a score of 150.
REQUIREMENT 5 OPTION A 5f3:	As a member of the USA Archery Junior Olympic Archery Development program (JOAD), earn your indoor or outdoor green, purple, and gray achievement award pins using a recurve bow or longbow.
REQUIREMENT 5 OPTION A 5f4:	As a member of the NFAA's Junior Division, earn a Cub or Youth 100-score Progression Patch.

These components of the requirement are skill-based requirements, and you will only be able to complete this requirement if you are able to meet the standards specified in the selected requirement component.

2024 Edition

**REQUIREMENT 5
OPTION B 5a:**

Name and point to the parts of the compound bow you are shooting.

COMPOUND BOW

2024 Edition

**REQUIREMENT 5
OPTION B 5e:**

Locate and mark with dental floss, crimp-on, or other method, the nocking point on the bowstring of the bow that you are using.

Nocking Point

DO ONE OF THE FOLLOWING (5F1, 5F2, 5F3, or 5F4) FOR REQUIREMENT 5 OPTION B

**REQUIREMENT 5
OPTION B 5f1:**

Using a compound bow and arrows with a finger release, shoot a single round of one of the following BSA, USA Archery, or NFAA rounds:

- An NFAA field round of 14 targets and make a score of 70 points
- A BSA Scout field round of 14 targets and make a score of 90 points
- A World Archery/USA Archery indoor* round and make a score of 90 points
- An NFAA indoor round and make a score of 60 points.

**REQUIREMENT 5
OPTION B 5f2:**

Shooting at an 80-centimeter (32-inch) five-color target using the 10 scoring regions, make a minimum score of 160 points. Accomplish this in the following manner:
Shoot 15 arrows in five-arrow ends, at a distance of 10 yards
AND
Shoot 15 arrows in five-arrow ends, at a distance of 15 yards.

**REQUIREMENT 5
OPTION B 5f3:**

As a member of the USA Archery Junior Olympic Archery Development program (JOAD), earn your indoor or outdoor green, purple, and gray achievement award pins using a compound bow.

**REQUIREMENT 5
OPTION B 5f4:**

As a member of the NFAA's Junior Division, earn a Cub or Youth 100-score Progression Patch.

These components of the requirement are skill-based requirements, and you will only be able to complete this requirement if you are able to meet the standards specified in the selected requirement component.
