## METALWORK MERIT BADGE WORKBOOK

This Scoutmaster Bucky Merit Badge Workbook is based off the current Scouts BSA Requirements.

Consider also using the Metalwork merit badge class preparation page for clarification and expections when participating in a Scoutmaster Bucky merit badge opportunity (<u>online</u> or <u>in-person</u>).

REQUIREMENT	<b>2 C:</b> Describe	how t	o work-har	den a r	metal.								
													,

<b>REQUIREMENT 2 D:</b> Describe how to anneal a nonferrous and a ferrous metal.
REQUIREMENT 3: Do the following:
REQUIREMENT 3 A: Work-harden a piece of 26- or 28-gauge sheet brass or sheet copper. Put a 45-degree bend in the
metal, then heavily peen the area along the bend line to work-harden it. Note the amount of effort that is required to
overcome the yield point in this unworked piece of metal.
Completed
Note the amount of effort that is required
REQUIREMENT 3 B: Soften the work-hardened piece from requirement 3a by annealing it, and then try to remove the 45-
degree bend. Note the amount of effort that is required to overcome the yield point.
Completed
Note the amount of effort that is required
REQUIREMENT 3 C: Make a temper color index from a flat piece of steel. Using hand tools, make and temper a center
punch of medium-carbon or high-carbon steel.

REQUIREMENT 5 A: Opt	ion 1—Sheet M	etal Mechanic/Tinsmit	h		
REQUIREMENT 5 A 1: N	ame and describe	the use of the basic she	et metalworkin	g tools.	
					la de

<b>REQUIREMENT 5 A 2:</b> Create a sketch of two objects to make from sheet metal. Include each component's dimensions on your sketch, which need not be to scale.
<b>REQUIREMENT 5 A 3:</b> Make two objects out of 24- or 26-gauge sheet metal. Use patterns either provided by your counselor or made by you and approved by your counselor. Construct these objects using a metal that is appropriate to the object's ultimate purpose, and using cutting, bending, edging, and either soldering or brazing.
Completed
REQUIREMENT 5 A 3 A: One object also must include at least one riveted component.
Completed
<b>REQUIREMENT 5 A 3 B:</b> If you do not make your objects from zinc-plated sheet steel or tin-plated sheet steel, preserve your work from oxidation.
Work is zinc-plated sheet steel, tin-plated sheet steel, or has been preserved from oxidation
REQUIREMENT 5 B: Option 2—Silversmith

<b>REQUIREMENT 5 B 1:</b> Name and describe the use of a silver	rsmith's basic tools.
<b>REQUIREMENT 5 B 2:</b> Create a sketch of two objects to make your sketch, which need not be to scale.	ce from sheet silver. Include each component's dimensions on

REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.	<b>REQUIREMENT 5 D 1:</b> Name and describe the use of a black	smith's basic tools.
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
REQUIREMENT 5 D 2: Make a sketch of two objects to hot-forge. Include each component's dimensions on your sketch, which need not be to scale.		
	<b>REQUIREMENT 5 D 2:</b> Make a sketch of two objects to hotwhich need not be to scale.	forge. Include each component's dimensions on your sketch,

**REQUIREMENT 5 D 3:** Using low-carbon steel at least 1/4 inch thick, perform the following exercises:

REQUIREMENT 5 D 3 A: Draw out by forging a taper.
Completed
<b>REQUIREMENT 5 D 3 B:</b> Use the horn of the anvil by forging a U-shaped bend.
Completed
<b>REQUIREMENT 5 D 3 C:</b> Form a decorative twist in a piece of square steel.
Completed
<b>REQUIREMENT 5 D 3 D:</b> Use the edge of the anvil to bend metal by forging an L-shaped bend.
Completed
<b>REQUIREMENT 5 D 4:</b> Using low-carbon steel at least 1/4 inch thick, make the two objects you sketched that require hotforging. Be sure you have your counselor's approval before you begin.
Completed
REQUIREMENT 5 D 4 A: Include a decorative twist on one object.
Completed
REQUIREMENT 5 D 4 B: Include a hammer-riveted joint in one object.
Completed
REQUIREMENT 5 D 4 C: Preserve your work from oxidation.
Completed
